

California Technology Assistance Project Region IV

Basic Windows NT 4.0 Training **January 23-24, 2002**

Objective

This two-day workshop will provide an overview of the knowledge and skills necessary to perform installation planning, installation, post-installation and day-to-day administration and management tasks in a single-domain or multiple-domain Microsoft Windows NT-based network.

The training is not intended to be preparation for Microsoft Certification. It is meant to prepare building level network coordinators to administer and maintain a stable, reliable Windows NT server environment. JDL only works with K-12 education and understands what building level network administrators need to know. The training will not overwhelm participants with all that is possible in NT. It will emphasize what is required in a way that non-technical persons can easily grasp and remember.

Participation

We have scheduled a two-day workshop, January 23-24, 2002, from 9 a.m. to 4 p.m. This workshop will be held at the Alameda County Office of Education, 313 W. Winton Avenue, Hayward, California 94544. Registration is limited to the number of computers available, so please register early.

District purchase orders accepted for two or more participants. \$150.00 fee includes breakfast, lunch, and materials. No refunds for no-shows. Cancellations require at least 48 hours notice. Substitutions accepted. Please photocopy this flyer and use a separate form for each individual. Mail checks (payable to ACOE) along with your registration form(s) to: Kristi McGinnis, CTAP Region IV, 313 West Winton Ave., Hayward, CA 94544-1198, phone 510-670-4168, fax 510-670-4161, kristim@acoe.k12.ca.us
