# Density Investigation Posters

## Can you tell I understand Density?

First review your own work using the following guidelines, then exchange papers and have your partner review your work. Try to give specific advice on how to improve the work.

1. Was the INVESTIGATION presented clearly in your illustrations? \_\_\_\_\_

Are the materials shown and the steps portrayed -- before and after? \_\_\_\_\_

Could someone repeat your experiment based on this? \_\_\_\_\_

How could this part be improved? \_\_\_\_\_

---

---

2. Are the RESULTS clearly summarized? \_\_\_\_\_

Are there graphs, data and observations? \_\_\_\_\_

How could this part be improved? \_\_\_\_\_

---

---

---

3. Does your CONCLUSION explain the results in a way that makes sense and shows an understanding of **density**? \_\_\_\_\_

Can the reader learn about density by reading your explanation? \_\_\_\_\_

How could this part be improved? \_\_\_\_\_
